**TAFT SURE TRADE
PACT WILL PASS**

Continued from First Page.

As in the House, so in the Senate, the measure proposed by the Republican President to reduce the high cost of living will be enacted by Democratic votes against Republican opposition.

No complete list of the Senators who are expected to vote for religiosity is made.

public." Such is the situation here, where there is the opposition from the great industrial and railroad corporations that make public the names of Senators who are favorable to the bill would be to read on them influences powerful enough to crush a public man beneath their weight.

by whatever motive impelled, the Senators who vote against reciprocity and through false friendship insist upon loading the summer with unpleasant work.

any who ever motive impelled, the Senators who vote against reciprocity do so through false friendship insist upon holding the measure with amendments which will break its back, are destroying the only chance that the political situation presents for any possible reduction of the tariff or of the cost of living. No one believes any coalition of Democrats and insurgents can be arranged by which the farmers' free list will be passed. Insurgent Senators who are part and parcel of the tariff coalition and reciprocity do not hesitate to say that they are bitterly opposed to the farmers' free list.

Men like Cummins, Borah, Brewster, Hoar, Clapp and their associates speak of the insincerity of the Democrats and declare they can never follow them in their tactical ideas as to tariff revision. The tariff is sacred to the farmers free list because it goes so far, and to the reciprocity bill because it does not go far enough.

Manifestly, there is no hope to be expected from the insurgent. Unless the Democrats show the broad patriotism that looks beyond party lines, which the President attributes to them, there is no hope.

to any relief for the people except in the immediate future.

By voting naively for reciprocity a farmer measures tariff reform, accompanied by reduction in the cost of living, will be obtained.

Amendments Vital Blows.

By tunking upon amending the pact with the farmers' free list tariff, tariff reform of any kind will be defeated and the cost of living will go higher. It is realized.

reciprocity means a continuation of the tariff taxes and high prices, and that if triumph means the beginning of the end of the control of the market.

which is serving the aggregate greed of the country, to the last desperate state of Democracy's look to the next future for a triumph which will be the party, but not the people's, triumph. The party's control of all the changes of the tariff, make a revision of the entire tariff, in the absence of the reciprocity offer half a loaf, which ought not in reason to be rejected. The President made it clear that he calls before leaving for Chicago that he cannot regard any man as friendly to reciprocity who supports a proposition to amend the tariff.

amendments were vital to the bill and must be defeated else the entire measure will fall to the ground.

In the speech he is to make in Chicago to-night it is expected Mr. Taft will hit from the shoulder and prevent the issue so clearly that the people will force a sharp division among Senators on the whole proposition.

CHICAGO, June 8.—The Tribune publishes this morning the results of a poll of newspapers, both daily and weekly, in twenty-two States of the Central, Western, Southwestern, Northwestern and Pacific divisions on the question of approving the reciprocity agreement negotiated with Canada by President Taft.

10 more than 10,000 newspapers, representing every shade of political opinion the Tribune submitted this question: "Are you in favor of the approval by Congress of the reciprocity agreement with Canada negotiated by President Taft?" The replies numbered 4,593, of which 4,240 were definite, even if qualified, expressions of opinion. Of these 3,713 were in favor of the agreement and 1,127 against it—nearly a 3 to 1 vote for the policy advocated by President Taft, shattering the claims of the foes of reciprocity.

NO BRANSFIELD
TRADE YET MADE

PITTSBURGH, June 3.—According to the Philadelphia management, the Boston Nationals have halted the move to return Kitty Bransfield to the minors. It is said that Boston is willing to pay the \$1,500 waiver price to have Bransfield help Teague out at first base for the Rustlers.

Doolin will not admit that he will allow Boston to have Bransfield, but once more the name of "Peaches" Graham is brought up and there is talk that Kitty may be used in some way or to some extent in

ANDOVER AND EXETER IN ANNUAL BATTLE

EXETER, N. H., June 3.—This is the day of the annual diamond battle between the Phillips Andover Amateurs and the Phillips Exeter Amateurs on Plimpton Field. This is the thirty-second meeting of the old rivals, and interest is keener this season than any.

Andover is a favorite, having made a better showing in the preliminary season, but the uncertainty of the great national game increases Exeter's chances of winning, so the Bay State boys do not expect an easy game.

The only estimate of the ability of the two teams that can be had is from the scores made by the rivals against the same teams.

Andover Has Strong Team.

Andover and Exeter both defeated Bates College, the former 9 to 1 and the latter 1 to 0. Andover defeated the Yale Freshmen 4 to 0, and the Blue in turn, beat the Exeter team 5 to 2. Exeter beat the Princeton Freshmen, while Andover had a hard time in winning the game, 2 to 2, while the Harvard Freshmen defeated Exeter 5 to 0, and Andover won the Harvard boys earlier in the season by 9 to 1.

SCHOOL TRACK MEET IS TO-DAY

The annual outdoor championship of the Boston High School Track and Field League are to be held this afternoon at Wood Island Park.

Eleven schools will be represented at today's meeting, which promises to be the most successful yet held.

Little Willie Gets a Lesson

The Nice Old Gentleman Warned Him of the Danger of Calling a Girl "Red Head."

By KENNETH HARRIS

"Little Willie, old gentleman called the little boy to the chair on the porch and stood him against the doorpost and asked of his bright little eyes.

"Would you like to know, Willie, what I mean?"

"Yes, please," replied the little boy.

"How tall do you think you were?" queried the nice old gentleman.

"That's that."

"You mean because that automobile-bus little girl that drove by, the way he has been talking, I mean?" asked the nice old gentleman.

"By the time she had finished, I guess you were a good two-foot-tall, and still a little boy."

"The little boy grinned in an embarrassed way."

"Don't do that, Willie," the nice old gentleman admonished. "You justify the young lady's comment on your dental recalculation. Wait until your front teeth grow in and baby gums' teeth sit snug as an apple-cake. I suppose you were hardly conscious of the gas snail she called your attention to, eh?"

"What does mean?" asked the little boy.

When We Learn the Real Truth

"You didn't know how it disagreed you," explained the nice old gentleman. "You didn't know your face was dirty, either, did you? You didn't eat a continental, did you?"

"Yes, you had recalled the disagree of it and the significance of trouble given and depression upon a mother's face, you would have certainly it, even before the young man and lack of your own wouldn't you?"

"Of course the little girl might have spoken of it in a more kindly and useful manner, but I have a sense that she was used at you. Don't you think so, Willie?"
